

# ALCOHOL REMOVAL

Our highly specialised alcohol removal system, Memlo is an accurate and non-invasive method of crafting low to zero alcohol wines - an expanding sector in an increasingly health-conscious market. Along with our 'sweet spotting' trialing service, delicately fine tuning the balance of a wine has never been more achievable. This service is great for achieving wines with an alcohol concentration of 5% or less.

**Flow Rate** 1,000 Litres per hour
